TECHNICAL INFORMATION

DESIGNER: Tapinassi & Manzoni

COFFEE TABLE: Kendo coffee table is an exemplary merge of modern design and function. The perfect item that will embellish not only your living room, but any other space, with its sophisticated details and elegant lines. The main feature of this table is the non-removable metal storage compartment with rawhide base which fits elegantly in the wooden structure and catches eye creating a game of contrasts that characterizes the whole collection.

SIDE TABLE: Kendo side table, in wood with a metal base, is a comfortable item on which you can place a book or a glass, to make your relaxing moments last longer. It carries all the major characteristics of the Kendo line, the elegant metal insert adds a shining touch to this item.

SIDEBOARD: Kendo Sideboard completes the Dining area, enriching the project with elements of high-skilled cabinet craftsmanship, synonymous with Italian craftsmanship excellence. Storage units that express originality and care for detail. Functional and versatile furnishing elements. An originality expressed in primary forms that play on the contrasts between materials and colours. Furnishing elements projected into modernity, for an up-to-date take on the more classic style of the storage units of the living area.

PRODUCT DETAILS

COFFEE & SIDE TABLES: Coffee and side tables have legs in oak or walnut solid wood and top in brushed open-pore oak or walnut veneer, characterized with a pewter or brass metal insert that embellish the design. The base of the side table is in brushed metal.

SIDEBOARD: Base and details in laser-cut sheet metal (10 mm thick), curved, polished and painted in various finishes. Storage elements and tops with details in solid walnut or oak and panels in MDF (Medium Density Fiberboard) veneered in various types of wood or with a gloss lacquer finish in various colours to be chosen from the pattern book. Door in MDF with wing-type opening and handle with milled edges. The interior of the sideboard is entirely in wood. Internal shelves are available in extra-light tempered glass with polished ground edges (8 mm thick). The sideboard is designed to be fitted with an interior set of led lights with opening sensors, on sale separately as an option.

Color variations:

Wood is a natural raw material. It presents therefore differences in color and structure.

Over time it may be subject to color variations, more or less evident, different depending on the structure of the surface or its position.

To delay this natural process, we recommend avoiding exposing wooden products to direct sunlight.

For the above, the natural variation of the woods, the variations in tonality of colors solicited by environmental or artificial lights, the minimal dimensional variations determined by anomalous rates of humidity or dryness, the veins, knots and other natural characteristics of wood products cannot be considered defects.

NOTES
