## TECHNICAL INFORMATION

---

DESIGNER: Bernhardt & Vella

The night area accessories of the Venere collection feature a delicate, sinuous structural design which expresses lightness and sophisticated elegance combined with crossed metal feet which is an element for all the structures of this collection. A perfect coordination of styles for the new Venere bed of the Natuzzi Italia collection.

A clever balance between natural beauty and industrial modernity. An additional feature is the absence of visible handles which accentuates the curves and makes the materials the main feature of the collection. Even the internal part is amazingly elegant: the chest of drawers hides a small, extractable shelf for jewelry to have daily accessories at hand, and to keep them in order. The Venere collection is a refined and pleasant encounter with everyday comfort.

### PRODUCT DETAILS

Weight bearing structure in curved laser-cut sheet metal (8 mm thick), with a polished and painted finish.

The chest of drawers and the front are in curved poplar plywood and the exterior is in MDF (Medium Density Fiberboard) lacquered or veneered with various types of wood. The interior of the drawers is lacquered in the same colour as the external finish.

Jewelry drawer with a wood bottom and a decorative grill in painted wood. Fully extractable drawers with Blum guides and a push-pull opening mechanism. Top in lacquered or wood veneered MDF.
