TECHNICAL INFORMATION

Natuzzi mattresses, Made in Italy

Mattresses are with 720 pcs of individually pocketed springs designed to provide proper support while transferring very little motion; an evolution in respect to traditional springs.

Each zone of the mattress is studied to assure calibrated and equal support to all joints of the body regardless of the laying position, improving the quality of your sleep.

Wrapped with hypoallergenic cover in 100% polyester on both sides (summer and winter)

External cover in fabric.

Mattresses are available in two dimensions 160x200 and 180x200, also in the fire retardant version

There are side aerators for better transpiration of the mattress
