SMOKED OAK

TECHNICAL INFORMATION

DESIGNER: CLAUDIO BELLINI

The versatile Accent table is the perfect complement to the sofa with the same name. The top, which is finished with a special anti-scratch coating, is supported by a light metal structure that gives the design a stylish character. A design gem that enriches the living area with simplicity.

The name is clearly inspired to the large soft beach of Long Beach famous seaside south of Los Angeles, background of numerous Hollywood movies and TV series and well known for the beauty of the seaside promenade and its skyline, to which the lines of this program refer to.

Long beach table program is a new compositional layout, which gives the possibility to live the space in new shapes of comfort.

NOTES
